Dear Hiring Manager,

I am writing to express my enthusiasm for the Oracle Apps Developer position at Oracle. With a background as a Software Business Engineer at Huawei, and currently serving as a Teaching Assistant at Ahram Canadian University, I am eager to contribute to the international network of experts in the Customer Success Services team.

My experience in software engineering and network protocols, coupled with my ISTQB Foundational level certification, has equipped me with a solid foundation to excel in this role. I am particularly drawn to Oracle's commitment to fostering a diverse and inclusive workforce, and I am eager to bring my passion for technology and continuous learning to the team.

The prospect of engaging with a variety of customers, and the investment in professional development, aligns perfectly with my career aspirations. I am confident that my analytical skills, critical thinking abilities, and strong desire to learn about cutting-edge technologies make me a strong fit for this role.

I am looking forward to the opportunity to further discuss how my background, skills, and enthusiasm can contribute to the continued success of Oracle.

Thank you for considering my application.

Warm regards,

Nada Mohamed
